+ AGEWELL**

Another Level of Healthy Aging

GIVE YOUR HEALTHY AGING ROUTINE A LIFT

AgeWell, our ultimate healthy aging collection meets LiftIntense. AgeWell features Bakuchiol – a plant-based alternative to retinol – just as powerful, yet more gentle on skin. Combined with Stabilized Vitamin C + Plant Stem Cell Extract, the collection uncovers youthful-looking skin.

To supplement the AgeWell collection, LiftIntense products have been formulated to help re-densify, lift, tone and firm the look of skin. These formulas help combat the inversion of the “triangle of beauty” by supporting collagen and elastin through moisturization, resulting in the appearance of increased volume and re-plumped skin, and an overall appearance of a more lifted, toned, contoured face.
